# Hacker-Craft®

## DESIGN FEATURES:

- Sloped stem
- Sloped transom
- Traditional windscreen
- Traditional hardware
- Contemporary pop up cleats
- Traditional deck seams
- \*Various color schemes available

## DESCRIPTION & PERFORMANCE:

The Sportabout is a combination where the traditional Runabout style meets the versatility of Sport. The hull shape is modeled after the runabout, exchanging a vertical transom for a sloped transom and finished with contemporary hardware.

The Sportabout is an ideal model for owners who enjoy a gentle cruise, but also want to access the water for swimming or water sports\*.

The concave warped bottom provides a gliding and graceful ride, cutting through reasonable chop. Ideal conditions are under 1 meter.

\*The additional of a swim platform is suggested, but not required.
